

General Guide Lines to Upgrading To DG weighing

	Weighbox Type To Be Upgraded							
	Old cream type	Weightronix			Digi-star			
		700e	715	1015	EZ210	EZ3200	EZ2000**	EZ3500
P/N	700377	700378	700345	700346	700379 / 701495	702271	703020**	703356
Available as New	No	No	No	No	No	No	No	No
Available as Service Exchange	No	No	No	No	Limited	Limited	Limited	Limited
Power Cable Required - 703352 / 700356	Yes	No	No	No	Yes	Yes	Yes	Yes
Evolution Kit Required (703588)	Yes	Yes	Yes	Yes	Yes	Yes	No	Yes
Upgrade requirements 1/2/3/4	1* or 2	1* or 2	1* or 2	2 or 3	2 or 3 or 4	3 or 4	5	3 or 4

Upgrade requirements

- 1 Old type junction box with 4 pin weighbars wired in internally in the junction box is fitted to the machine (4 of pin pig tails 700668, junction box 702319, DG weighbox, Evolution Kit and possibly a power cable dependant on the weighbox are required)*
- 2 Old type junction box with 4 pin weighbars with plugs connected externally to the junction box is fitted to the machine (junction box 702319 DG weighbox, DG weighbox, Evolution Kit and possibly a power cable dependant on the weighbox are required)*
- 3 702319 junction box is fitted to the machine - 1 off 5 pin & 4 off 4 pin sockets in a row – weighbars are 4 pinned with a socket on the ends of the cable – (DG weighbox, Evolution Kit and possibly a power cable dependant on the weighbox are required)
- 4 700680 junction box is fitted to the machine - 5 off 5 pin sockets in a row – weighbars are 5 pinned with a socket on the ends of the cable – (DG weighbox, Evolution Kit and possibly a power cable dependant on the weighbox are required)
- 5 No junction box or evolution kit- weighbar cables long enough and compatible plugs

Unfortunately there is no serial number breaks because of alterations that may have been alterations done from time to time there are no hard and fast rules. Confirmation from a customer may be necessary.

* older machines have the old type junction, this would need to be upgraded to 702319 1 5 pin & 4 of 4 pin junction box. Really old weighbars would have no plugs on the end and these would need pig tails fitted also but are very rare .

** Some markets before DG product release may have bought a limited number of EZ2000 with 1 socket on the base for a display cable (702298 or large display 701851) to cover replacing previous nla weighboxes.
